About me

What's in a name.

Hello I am a twenty-two year old male with a passion for code based in The Netherlands. My interests are with both software and hardware, especially the combination of them.

My skills are obtained mostly in practice by projects, to seek out new problems and new solutions, to boldly code what no man has coded before.

Education

By any other name.

VMBO-T	Haarlem 2006-2011
MBO-4 Application Developer	Hoofddorp 2011-2014
HBO Information Technology	Haarlem 2014-2016 (Cancelled)

Languages

Logic is the beginning.

Dutch	Native
English	Good
German	Mediocre
Klingon	SaS

Target

Involve me and I learn.

Programming is not simply a set of rules, it is a philosophy... and a very correct one. When starting to learn how to code, we have to understand that sooner or later, we should not and cannot ever stop learning. It is the essence of being a programmer.

Experience

The adventure just begun.

Scholen met Succes	Haarlem	Sylvia Reniers
Soliede Opleidingen	Beverwijk	Thijs Otter
Computer WorkShop	Haarlem	Marcel Mekenkamp
Providence Art	Gouda	Marianne de Jong

Skills
